Monday, June 27. 1720.

London, June 27.

On Saturday arrived the Mail from France of Wednesday.

Madrid, June 18.

On the 16th Instant, the Duke de Bournonville, who is made Captain of the Company of the Walloon Life-Guards, took the Oath to the King at the Escorial upon that Account: The same Day the Marquess de Grimaldo, first Secretary of State, took likewise the usual Oaths for officiating in the Quality of Councillour and Chancellour of the Order of the Golden Fleece, till his eldest Son, to whom the King has given that Post, has attained the Years requisite by the Statutes of the said Order. His Catholick Majesty has nominated to the Archbishoprick of Toledo, Don Diego Astorga, Bishop of Barcelona.

From the Gazette a-la-Main.

Paris, July 3. On the 29th past, the Bishop of Alais took the Oaths to the King in the Presence of the Duke of Orleans, for the Archbishoprick of Embrun, to which he has lately been promoted. The same Day in the Afternoon, the Cardinals de Noailles and Rohan had a long Conference with the Duke of Orleans at the Palais Royal, about the Accommodation of the Affair of the Constitution. The Actions of the India Company rose this Morning from 4750 to 5030: The Regent has been twice at the Place of Vendôme, where the Paper Traffick is carrying on at present, so as it was formerly in Quinquampoix-street. The Bank continues to be shut up, and the Bank-Bills are still between 25 and 30 per Cent. Discount. Men are Night and Day at Work at the Mint-Offices to coin new Gold and Silver Species: It is advised from Rouen, that the Merchants there refuse to take any more Bank-Bills, and as they were paid there at the Mint, some Merchants went from hence to dispose of those they had in their Hands, but they were refused Payment at the said Mint. The India Company design to return to the King the Administration of the General Farms, by which they have lost this Year above Eighteen Millions of Livres, Trade having been entirely at a stand. On the 1st Instant, some Changes were made in publick Employments. M. de Chasteauneuf, late Ambassadour in Holland, and last President of the Royal Court of Justice in Britany, is made Provost of

the Merchants of this City, in the Room of M. Trudaine. M. Tachereau de Beaudry, Master of the Requests, and *Secrétaire des Commandemens* to Madame, is appointed Lieutenant-General of the Police, in the Room of M. Dargenson, the late Chancellour's Son, besides some other Alterations. It is believed we are to hear of still greater Changes after the Bank have given in their Accompts.

Paris, July 3. We see here a great Number of Arrêts coming out from Day to Day, which either derogate from or repeal the former ones. An Arrêt of the Council of State dated the 27th of June takes off the Prohibitions contained in the Arrêt of the 16th of April last, forbidding all Ecclesiastical Communities and Hospitals to create Annuities on pain of being null, and permits those Societies to lay out their Money in purchasing Annuities of the 25 Millions established on the Town House by the late Edict. The City of Lions having requested that the Duties on Silk both of home and foreign Produce be taken off, as being greatly prejudicial to Trade, his Majesty according to their Desire has by an Arrêt dated the 18th of May, suppressed all those Duties, instead of which shall be paid for the future only 20 Sols on every Hundred Weight, and the Sum of 60000 Livres which the City of Lions yearly received out of the former Duties as their own Property, his Majesty assigns the Payment thereof on the general Receipt of the Finances of the Generality of Lions.
